

Environmental Policy

Introduction

We, at Thanos Hotels & Resorts, are committed to protecting the environment, to the extension of our capabilities. This way we can keep offering a unique product to our guests in a healthy environment for our employees and the local community. To minimize environmental impacts regarding our products, activities, and services we shall:

- Identify and monitor detailed environmental goals.
- Improve constantly of awareness among our employees with respect to environmental management.
- Constantly improve the implementation and maintain the environmental management system.
- All necessary recourses will be given by the Management of the Hotel to implement this environmental policy.
- We strive to prevent, eliminate, and reduce waste and pollution by improving operations and recycling/reusing of material wherever possible.
- We strive to reduce energy consumption.
- This policy will be made available to interested parties whenever asked for

Thanos Hotels & Resorts ESG Committee approved this statement on March 2, 2023.
